

Subject: PLAN OF DISSEMINATION OF STATISTICAL DATA ACCORDING TO THE STANDARD CLASSIFICATION OF ACTIVITIES 2008 (SKD 2008) AT THE STATISTICAL OFFICE OF THE REPUBLIC OF SLOVENIA

1. Purpose of the document

The document describes the strategy and solutions of the Statistical Office of the Republic of Slovenia (SORS) regarding the dissemination of statistical data according to SKD 2008. It is intended for data users and for SORS's employees.

2. General guidelines for publishing statistical data according to SKD 2008

2.1 Start of publishing statistical data according to SKD 2008

Transition to publishing statistical data according to SKD 2008 shall be *uniform in 2009* with the following exceptions:

- National Accounts within Regulation (EC) No. 2223/96 (in 2011)
- Economic Accounts for Agriculture within Regulation (EC) No. 138/2004 (in 2011)
- Labour Force Survey within Regulation (EC) No. 430 (in 2008)
- Job vacancy statistics within »gentlemen's agreement«.

2.1.1 Monthly, quarterly and semi-annual surveys

Statistical data according to SKD 2008 shall start to be published with the reference year 2009.

2.1.2 Annual and multi-annual surveys

Statistical data according to SKD 2008 shall start to be published for the reference year 2008 (in 2009 or later).

2.2 Length and content of time series of statistical data published according to SKD 2008

Time series of statistical data published according to SKD 2008 shall start with 2000 or in line with Eurostat requirements. Only key original or processed time series shall be published. The selection of time series and the level of calculation shall be proposed by subject-matter editors.

2.3 Publishing of original or processed time series of statistical data according to SKD 2008

Key time series published in the SI-STAT Database shall be original or processed, together with clear explanations. In publications only processed time series shall be published.

2.4 Dual publishing of statistical data according to SKD 2002 and SKD 2008

Statistical data shall be published only according to SKD 2008. Users shall be able to get additional information they need in a time series.

2.5 Information for users of statistical data shown according to SKD 2008

General explanations about the dissemination of statistical data according to SKD 2008 shall be put on the website; exceptions and the method of calculating time series shall be added as methodological explanations to individual tables.

3. SORS's dissemination products

3.1 First Release

Changes compared to the present system: in 2009 (or in other years for the above-mentioned exceptions) under appropriate tables and charts it shall be written that SKD 2008 was used; the same shall be written in methodological notes and explanations, and a link to explanations about the introduction of SKD 2008 shall be added.

3.2 Some Important Statistics on Slovenia

In 2009 under appropriate tables it shall be written that SKD 2008 was used.

3.3 Statistical Yearbook 2008 (with data for 2007)

In Statistical Yearbook 2008 all data shall be shown according to SKD 2002. This shall be stated in the introduction.

3.4 Statistical Yearbook 2009 (with data for 2008)

In Statistical Yearbook 2009 all data shall be shown according to SKD 2002. For two exceptions this shall be stated in the introduction, in methodological explanations and under tables.

3.5 Statistical Yearbook 2010 (with data for 2009)

In Statistical Yearbook 2010 all data shall be shown according to SKD 2008. For three exceptions this shall be stated in the introduction, in methodological explanations and under tables.

3.6 Analytical and promotional publications

In analytical publications all data shall be shown in line with item 2.1 of this document and in promotional publications the same as in yearbooks in corresponding years.

3.7 SI STAT Database

Data shall be shown in line with item 2 "General guidelines for publishing statistical data according to SKD 2008" of this document, which determines the start of publishing statistical data according to SKD 2008, the length and content of time series of statistical data published according to SKD 2008, publishing original or processed time series of statistical data shown

according to SKD 2008, dual publishing of statistical data according to SKD 2002 and SKD 2008, and information for users of statistical data shown according to SKD 2008.

When data are published for the first time, the time series shall be added and the data shown according to SKD 2002 shall be moved into the archives of data shown according to SKD 2002 in special maps that shall be available via a link from methodological explanations for the basic table.
