

The value of industrial production in August 2018 2.0% higher at the monthly level

Indices of industrial production, Slovenia, August 2018

The values of industrial production and stocks of industrial products in August 2018 were higher at the monthly level. Turnover was lower.

Industrial activity in August 2018 higher than in July 2018

In August 2018 the value of industrial production was 2.0% higher than in July 2018 and 6.9% higher than in August 2017.

At the monthly level it was higher in all three activities: in mining and quarrying by 5.3%, in manufacturing by 2.0% and in electricity, gas and steam supply by 1.9%.

Looking at the main industrial groupings, industrial activity in consumer goods industries was higher at the monthly level (by 7.8%), while in intermediate goods industries it remained the same. In capital goods industries it decreased (by 4.8%).

Turnover lower, the value of stocks of industrial products in August 2018 higher than in the previous month

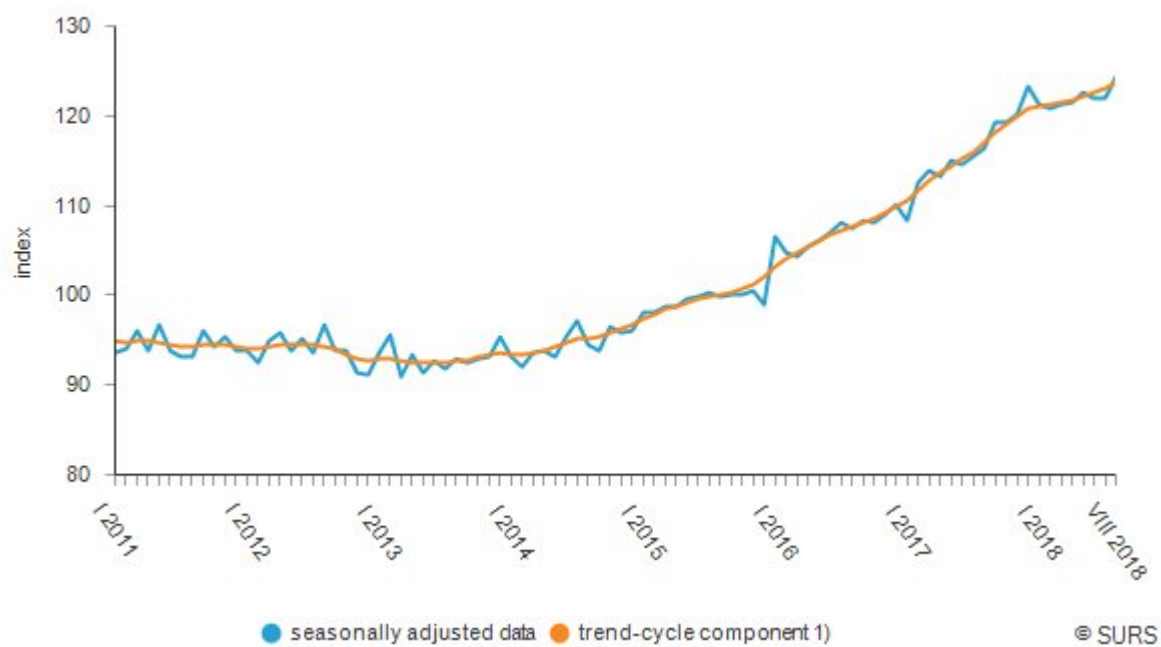

In August 2018 industrial enterprises generated 1.6% less turnover than in July 2018. Turnover was lower mostly due to manufacturing (down by 1.7%). Turnover in mining and quarrying was 9.2% higher than in the previous month.

From January to August 2018 industrial enterprises generated 3.1% more turnover than in the same period of 2017 and 20.3% more than the 2015 average.

In August 2018 the value of stocks of finished and unfinished production increased both at the monthly (by 1.7%) and at the annual level (by 9.9%). At both levels the increase in the value of stocks was the highest in intermediate goods industries (by 3.3% and 13.7%, respectively).

Detailed data on industrial production indices for August 2018 will be published on 15 October 2018 in the SI-STAT Database on SURS's website.
