

New in the SiStat Database: Average earnings in Slovenia for April 2019

Earnings of persons in paid employment by legal persons, detailed data, Slovenia, April 2019

Detailed, final data on average earnings in Slovenia for April 2019 are published in the SiStat Database.

Final data on average earnings for April 2019 presented at a more detailed level

April 2019 data on average earnings, published as provisional in the [First Release](#) of 17 June 2019, are published as final in the [SiStat Database](#) at a more detailed level – by statistical regions, administrative units, municipalities and activities. For persons employed by legal persons that are not budget users we also publish data on average monthly earnings under collective and individual contracts and data on the estimated number of persons employed, who received earnings at the level of the minimum wage. We also publish data on the estimated number of persons employed by budget users, who received the difference to the minimum wage.

Detailed data

Detailed data and time series are available on the [SI-STAT data portal](#), which enables simple browsing and exporting of data in various formats. Registered users have the possibility to store tables for later browsing and to sign up to be informed when data are updated.
