

15 november 2019
final data

In September 2019, 5% more new passenger cars registered in Slovenia for the first time than in September 2018

Transport, Slovenia, September 2019

Buses on public scheduled services made around 48 million passenger-kilometres, which is 7% more than in September 2018. In air transport fewer passengers were recorded than in September 2018.

Interurban and international coaches carried more passengers than a year ago

Buses in urban scheduled transport carried more than 4 million passengers in September 2019, 0,5% more than a year ago.

Around 2 million passengers were carried by buses in public scheduled transport (interurban and international), 5% more than in September 2018. 48 million passenger-kilometres were made by buses, almost 7% more than in September 2018.

In air transport fewer passengers than in September 2018

In September 2019, about 171,900 passengers travelled through Ljubljana Jože Pučnik Airport, 10% fewer than in September 2018.

In port traffic fewer goods handled than a year ago

Over 21,600 passengers were recorded in Slovenian ports in September 2019, 1% more than in September 2018.

In the Port of Koper almost 2 million tonnes of goods were handled in September 2019, 7% fewer than in September 2018.

In Slovenia more passenger cars registered for the first time

In September 2019, about 10,300 road motor vehicles were registered for the first time in Slovenia, about 0.5% fewer than in September 2018. Almost 7,900 passenger cars were registered for the first time, almost 1% more than in September 2018. Of these, almost 5,300 were new, 5% more than in September 2018.

Updated indicator on the structure of inland goods transport

In the SiStat Database we have methodologically updated the indicator on the structure of inland goods transport, which now shows the [share of rail goods transport](#) in the overall structure.

[More detailed data are available in the SiStat Database.](#)

First registrations of new passenger cars, Slovenia

1) Urban scheduled public transport is not included.

2) Data are provisional.

3) The data on passengers and passenger-km in public scheduled transport and data on passengers in urban scheduled transport from September 2016 on have been partly estimated due to the introduction of a new integrated public transport system (IJPP) and the new system of subsidised tickets for public transport (the estimates were prepared by the Ministry of Infrastructure).

4) From September 2019 onwards we will no longer publish air traffic data due to the termination of the only Slovenian air carrier.

Source: SURS

Methodological note

Data on road public scheduled transport for the last 12 months are provisional. With each release the data for the last 12 months can be corrected and supplemented with new data.

Port traffic data for the current year are provisional. The final data will be published at the end of September, with an annual release.

From September 2019 onwards we will no longer publish air traffic data due to the termination of the only Slovenian air carrier.

Detailed data

 Detailed data and time series are available on the [SI-STAT data portal](#), which enables simple browsing and exporting of data in various formats. Registered users have the possibility to store tables for later browsing and to sign up to be informed when data are updated.
