

New in the SiStat Database: Exports and imports of goods, detailed data, February 2020

Exports and imports of goods, detailed data, Slovenia, February 2020

Detailed data on exports and imports of goods for the period from January to February 2020 are published in the SiStat Database.

[SiStat Database is here](#). Data on exports and imports are available as monthly series and as annual cumulative data. Data on exports and imports of goods are shown by countries, by country economic groups, by the Standard International Trade Classification, by the Classification by Broad Economic Categories and by the Standard Classification of Activities. Cumulative data are also available in detailed tables by the Combined Nomenclature and by countries.

Methodological note

For the reference year 2020, we have not yet received all the data from the administrative sources necessary to monitor Slovenia's trade in goods with EU Member States. Missing data are statistically estimated and shown below unclassified (both by country and by economic classification). The value of the estimated data is around 4% of the value of total trade with EU Member States.

Detailed data

Detailed data and time series are available on the [SI-STAT data portal](#), which enables simple browsing and exporting of data in various formats. Registered users have the possibility to store tables for later browsing and to sign up to be informed when data are updated.
